VOTE YES ON PROP 74 PUT THE KIDS FIRST

Yes on 74. This is vital to Education because it returns authority to the administration. The current system disables administrators from making decisions once a teacher receives tenure. Teachers play a vital role in the lives of tomorrow's leaders and their work should be of the highest caliber.

VOTE YES ON PROP 75 PAYCHECK PROTECTION

Yes on 75. This will protect public employees from having their union dues used for political purposes without permission. Currently, union leaders make unilateral decisions with contributions.

VOTE YES ON PROP 76 LIVE WITHIN OUR MEANS

Yes on 76. This will force our Legislature to live by a simple rule – don't spend more than you make. Prop 76 will limit budget growth to the average growth in revenue during the prior 3 years. It will prevent legislators from creating costly programs that demand ongoing spending when revenues drop.

VOTE YES ON PROP 77 VOTER EMPOWERMENT

Yes on 77. This will take redistricting out of the hands of politicians. Instead, an independent panel of three retired judges will draw district lines. This initiative will make elected officials more accountable to voters and will reduce special interest influence.
